**With the Athletic Clubs of the United States.**

**New Orleans Rejects Them and Jacksonville Applies.**

**The Turf Congress Decides to Hold Annual Meetings—Pete McCoy Drowned—Bay District Races and Entries—Directum Fails.**

*By Telegraph to The Times.*

**NEW YORK, Nov. 9.—**(By the Associated Press.) It looks as if the Corbett-Mitchell fight would certainly come off in Florida. A certified check for \$10,000, has been received by Richard K. Fox, from Florida people, as a guarantee of good faith, and, at the meeting today of the representatives of both men, they agreed to accept, providing the Florida Athletic Club deposits \$500, to be divided between the fighters, training expenses, if the fight is not all the same off. Jacksonville fighters agree to give \$200 to the principal for training expenses after the contest. This was not satisfactory to the fighters' backers, and a telegram was sent tonight to Jacksonville asking for a guarantee for the amounts of training expenses.

**NOT WANTED.**

**NEW ORLEANS, Nov. 9.—**The Olympic Club has rejected the Corbett-Mitchell fight, and telegrams to that effect have been sent to the fighters.

**BAY DISTRICT.**

**Guadalupe Takes the Hurdle Race With Master Second.**

**SAN FRANCISCO, Nov. 9.—**(By the Associated Press.) Four and one-half furlongs, two-year-olds' selling, purse \$500: Tillary S. won, Carmel second, Centurion third; time 0:50.

**Hindcap, seven furlongs, selling, purse \$500: Quarterstaff won, Donohue second, Red Cloud third; time 1:32 1/2.**

**Handicap, six furlongs, two-year-olds: Annie Moore won, Little Tigh second; time 1:31 1/2.**

**One-mile, one-sixteenth, four furlongs, selling, purse \$500: Guadalupe won, Mariner second, Annie Race third; time 2:03 1/2.**

**Five furlongs, selling, for all ages: Joe Cotton won, Toots second, Patricia third; time 1:04 1/2.**

**THE ENTRIES.**

**SAN FRANCISCO, Nov. 9.—**Following are tomorrow's entries:

**About three-quarters of a mile, for maidens: Nicodemus, 11; White Cloud, 9; Peter, 11; Sir Peter, 11; Fidelia, 11; San Jacinto, 11; Imp. Broadmead, 11; Ivy, 11.**

**Selling, five furlongs: Crawford, 101 pounds; Hal Fisher, 114; Goldschock, 98; Irish John, 108; Tim Murphy, 116; Sir, 97; Zanzibar, 106; Greycourt, 100; Tigress, 104; Blizzard, 104; Vulcan, 94.**

**Selling, one mile and fifty yards: Revolver, 110 pounds; Garcia, 100; St. Croix, 108; Grecian, 119; Wild Oats, 100; Roman, 110; St. Paul, 100; Seven furlongs, all ages: Pescador, 122 pounds; St. Patrick, 110; Articus, 94; Wildwood, 121; Sir Reel, 104; Flambeau, 122; Racine, 122.**

**Five furlongs, two-year-olds: Nelson, 102 pounds; Road Runner, 111; Florina, 115; Crecelle, 110; Romulus, 119; Gussie, 118; Wandering Nun, 110; Thornhill, 118.**

**The weather is cloudy, and the track slow.**

**THE WEATHER UNFAVORABLE.**

**Directive and Flying Jib Fall to Lower Their Times.**

**HARTFORD, Nov. 9.—**(By the Associated Press.) Directive was driven by Kelly for a new record today. The raw weather proved too much for him—2:08 being the best that he could do, with a running mate. The wind freshened and conditions were not as favorable as those which Flying Jib experienced.

**Flying Jib went against his record of 2:04 and came home in 2:06 1/4.**

**The match race between Flying Jib and Warren resulted in an easy victory for Flying Jib. His time was 2:10 and Warren's 2:15.**

**THE TURF CONGRESS.**

**It Has Been Decided to Hold Annual Meetings Thereafter.**

**CINCINNATI, Nov. 9.—**(By the Associated Press.) The American Turf Congress, at its meeting today, elected V. L. Kirkham of Nashville, president; S. R. Montgomery of Memphis, vice-president; O. L. Bradley of Lexington, Ky., treasurer; E. C. Hopper of Covington, Ky., secretary. It was decided to hold annual meetings hereafter, wherever the secretary resided, and the date was fixed for the third Wednesday in November next.

**HE NEVER TIRES.**

**Johnson Still at His Work of Breaking the Records.**

**INDEPENDENCE (Iowa), Nov. 9.—**(By the Associated Press.) Johnson today added the world's standing start mile record to his list by going from tape to tape in 1:58 1/5. The record was 2:00 2/5. In the performance Johnson reduced the two-third mile record, standing start, to 1:21.

**Pete McCoy Drowned.**

**NEW LONDON (Conn.), Nov. 9.—**Pete McCoy, the well-known boxer of the John L. Sullivan combination, was drowned while on his way to this port on the tug Scranton from New York.

**CHINESE REGISTRATION.**

**The Department Has Sufficient Funds for One Month.**

**WASHINGTON, Nov. 9.—**(By the Associated Press.) Commissioner Miller of the Internal Revenue Bureau, today, addressed a letter to Mr. Murphy, Collector of Internal Revenue for the Milwaukee district, which is believed to outline the policy of the administration as to government employees participating actively in politics.

**He conveys the information that, according to the ideas of civil service entertained by the administration, it would be the best to leave himself entirely free to devote all his time to the duties of his office. The letter was written at the direction of Secretary Carlisle.**

**RAMSEY OUSTED.**

**The Omaha Division Gave for the Grand Chief's Scalp.**

**COUNCIL BLUFFS, Nov. 9.—**(By the Associated Press.) Judge Smith of the District Court of this city, upon application of the Omaha division of the Order of Railway Telegraphers, has issued a writ of habeas corpus against Chief D. G. Ramsey. The papers will be served on him at his home in Vinton, Iowa.

**Two other members of the grand division, A. D. Thurston, past grand chief, and George C. Fiegel, grand executive committee man, will also be removed.**

**LEFT-OVERS.**

**Additional Appointments by the President of Prior Nominees.**

**WASHINGTON, Nov. 9.—**(By the Associated Press.) Following are the recess appointments of those who failed of confirmation by the Senate: Charles E. Davis of Mount Auburn, Mass., for the Bureau of Internal Revenue; Isaac J. Wootten of Laurel, Del., agent for the Indians of Nevada; George Harper of Carrollton, of the Umatilla agency, Oregon; Guy Bryan of St. Louis, assayee in charge of the United States assay office.

**A COPPER DEAL.**

**Rumors That an Important Combination is Being Formed.**

**NEW YORK, Nov. 9.—**(By the Associated Press.) A local news bureau says that it is supposed in copper circles that a very important combination has been or will be formed, including Baron Hirsch, Rothschild and Lewishaw. These arrangements are not complete, but it is not denied that they are being made.

**A HOT TIME.**  
**Further Particulars of the Loss of the Steamer Fraser.**

**NORTH BAY (Ont.), Nov. 9.—**(By the Associated Press.) It is now believed that twenty-four men were on board the steamer Fraser when she took fire. Only twenty of these can be accounted for, thirteen are known to be lost and seven were saved, all of whose names have already been telegraphed. The vessel had two boats, each capable of holding eighteen to twenty men.

When it was decided to abandon the vessel, those on board proceeded to lower the boats. The first boat was lowered successfully, and sixteen or eighteen men got into it, but it did not under the midship, so it was cut loose and all in it, except one, were drowned, some being struck and stunned by the wheel and others being hampered by their clothes.

John Adams alone succeeded in reaching a scow which the Fraser was towing when four of the boats were lowered in a seeking refuge. Subsequently, two more joined them, making up a total of seven. The blazing vessel was seen from the shore, and a crew went out in a sailboat and rescued the men on the scow, which had meantime cut adrift.

When the first boat was lowered, an attempt to lower the other was made, but the flames were so hot on that side that it was found to be impossible, and those remaining on deck had to jump and swim for their lives to a scow in the lake.

**DEFIED THE STATE.**

**A "Rice Beer" Dispenser and the Governor.**

**Mr. Tillman of South Carolina Strikes a Large-sized Snag—A Sheriff, the Miller, a Posse and a Secretary all Powerless.**

**ST. LOUIS, Nov. 9.—**(By the Associated Press.) The Republic's special from Columbia, S. C., says that at the State Fair today, W. B. Meets was selling "rice beer." Gov. Tillman sent word that it must be stopped, but Meets refused. The Governor told Sheriff Cathcart to stop it, and Cathcart said he would make no arrests except under a trial justice's warrant.

The Governor, accompanied by some of the penitentiary guards, then ordered the sales to cease, but Meets told him he would only recognize the authority of State constables when they were armed with a warrant.

The captain of a local militia company was appealed to, but said he could not get his company together. Meanwhile, Meets dispensed more beer. Then the Governor maneuvered a large posse, armed and with them to stop it if necessary, but to carry out his orders. He marched at their head. Two of Meets' clerks were arrested in Meets' absence, but he appeared suddenly, and ran all the posse out, and said they could interfere with him at their peril.

Gov. Tillman declared that they could not meet under the dispensary law without a warrant, and ordered them to do so. "The first man that crosses my counter to arrest me without a warrant, I'll shoot," said he, and no one tried it. Neither would Meets allow his contract to be revoked, and he returned to the fair with the latter tried to do so at the Governor's request. Finally Meets sold out all his beer, and was averted.

**GARDING TOBACCO.**

**The Manufacturers' Committee Protests Against Any Increase of Taxation.**

**WASHINGTON, Nov. 9.—**(By the Associated Press.) The committee appointed by the Convention of Tobacco Manufacturers of the United States to appear before the Ways and Means Committee and protest against any increase of the tax on manufactured tobacco were accorded a hearing this afternoon by Chairman McMillin of the sub-Committee on Internal Revenue.

Mr. McMillin gave no intimation of the intentions of the Committee on Ways and Means with reference to the tobacco schedule. It has been frequently rumored that a majority of the committee favors the increase of the tobacco tax as a means of supplying the necessary revenues.

**JOHN DIDN'T WAIT.**

**Perplexing Case of Capt. Day's Officers and a Chinese Servant.**

**VALLEJO, Nov. 9.—**(By the Associated Press.) The officers of the U.S. Boston are minus a Chinaman. While the ship was at Honolulu a Chinese servant was enlisted and brought here to the War Department in charge of the Russian-American telegraph expedition. He spent several years in that country, engaged in the fur trade.

It was generally understood that Maj. Elias Meets, the Republic's representative at the World's Fair, had arrested the Chinaman, and called on the police, who made a raid and, after a hard rough-and-tumble fight, succeeded in landing ten of the vagrants in jail.

**Case of Mrs. Dr. Gwyer.**

**SAN FRANCISCO, Nov. 9.—**Judge Morrow today sentenced Mrs. Dr. Gwyer to imprisonment at hard labor in San Quentin for four months. The woman was arrested with a number of other alleged doctors recently for having used the mails in sending out obscene literature.

**REGISTERED FROM SAN DIEGO.**

**C. A. Watson Found Dead in a Hotel at Stockton.**

**STOCKTON, Nov. 9.—**(By the Associated Press.) A stranger named C. A. Watson was found dead in his room at the Commercial Hotel this evening. He arrived here last Friday morning, and seemed to have no business. He drank freely and made no acquaintances.

It is believed death resulted from apoplexy, as there is no evidence of suicide. There is nothing to show where he came from except that he registered from San Diego.

**NO FREEDOM FOR THEM.**

**The Bark Cape Horn Pigeon Brings the Other Russian Refugees.**

**SAN FRANCISCO, Nov. 9.—**(By the Associated Press.) The whaling bark Cape Horn Pigeon arrived this afternoon. On board were five Russian convicts who escaped with those who arrived here on the Morgan. The Immigration Commissioner, in compliance with standing orders from Washington, will arrest the fugitives and keep them in custody until further orders are received.

**AN ESTUDILLO KILLED.**

**A Representative Member of That Family Has His Skull Crushed.**

**SAN LUIS OBISPO, Nov. 9.—**(By the Associated Press.) Jose Vincento Estudillo, one of the oldest representatives of the famous historic family, was run over and instantly killed this afternoon near his ranch in this vicinity. He was taking his four-horse team through a gate when the horses started. He ran and grasped the lines, but was thrown under the wheels and had his skull crushed.

**FESTIVITIES AT SANDRINGHAM.**

**His Son of Albert and Victoria Celebrates His Fifty-second Birthday.**

**LONDON, Nov. 9.—**(By Cable and Associated Press.) The birthday of the Prince of Wales was celebrated today at Sandringham. The church-bells were ringing during the morning and flags were flying everywhere in the vicinity of the residence of the prince, and a dinner was given to the 300 laborers and workmen employed upon the Prince of Wales's estate.

**CRAZED THROUGH SEASICKNESS.**

**A Young Bank Clerk Leaps Overboard from a Steamer.**

**SAN FRANCISCO, Nov. 9.—**(By the Associated Press.) The steamer Umatilla, which arrived here this evening from Puget Sound, reports a suicide at sea. Harry Innis, a young man recently employed as a bank clerk at Seattle, and who was coming here to accept a similar position, became crazed through seasickness and plunged overboard.

**ACCIDENTS AT GRASS VALLEY.**

**Miners Who Had Miraculous Escapes from Death.**

**GRASS VALLEY, Nov. 9.—**(By the Associated Press.) This evening, Stephen Davey and Samuel Kitto came near losing their lives in the North Star mine. They were descending the shaft on a truck. Davey sitting in front, and had with them what miners call a "scraper." When nearing their des-

**Obscenity in Personal Mail is Not Punishable.**

**District-Attorney Garter Announces He Will Appeal.**

**Two Children Asphyxiated and the Mother Overcome.**

**Left the Gas On.**

**Two Children Asphyxiated and the Mother Overcome.**

**SAN FRANCISCO, Nov. 9.—**(By the Associated Press.) Mrs. Kohlboecker, who is visiting friends in this city, left the gas turned on when she retired last night. Her two little sons, Oscar, aged 5, and Herman, aged 7, who occupied the same room, were dead when discovered. The mother is expected to recover.

**IT MIGHT BE MORE.**

**British Columbian Seeks Ask \$1,000,000 from the United States.**

**VICTORIA (B. C.) Nov. 9.—**(By the Associated Press.) Claims aggregating \$1,000,000 have been forwarded to Ottawa by Collector of Customs Milne on behalf of British Columbia sealers, to be presented against the United States under the arbitration arrangement.

**IMPRISONMENT FOR LIFE.**

**Judgment of the Jury in the Case of Jockey Ward.**

**SAN FRANCISCO, Nov. 9.—**(By the Associated Press.) The jury in the case of Jockey Dick Ward, the boy who killed a stable boy named Kelly with a pitchfork, brought in a verdict today of murder in the first degree, and fixed the punishment at imprisonment for life.

**A FLYING TRIP.**

**The Cruiser Olympia Sighted in Santa Barbara Channel.**

**SANTA BARBARA, Nov. 9.—**(By the Associated Press.)

## The Los Angeles Times

MEMBER OF THE ASSOCIATED PRESS.

VOLUME XXIV.

TWELFTH YEAR.

TERMS: By Mail, \$8 a year; by carrier 85 cents a month, or 20 cents a week. Sunday Times, \$2 a year. Weekly, \$1.30; 6 months, 75 cents.

Guaranteed Net Daily Circulation, October, 12,488 Copies  
Exceeding the net circulation of any other two Los Angeles daily papers.

Entered at the Los Angeles Postoffice for transmission as second-class mail matter

## PROCEEDINGS OF THE IRRIGATION CONGRESS.

## SPECIAL ANNOUNCEMENT.

On Sunday, October 15, The Times reprinted in full the proceedings of the Irrigation Congress as reported and published from day to day during its sessions, gathering the whole into a single issue, convenient for reference, and in a shape suited for transmission by mail to every quarter of the globe. This special sheet, which comprises twelve pages, also contains the valuable preliminary matter upon irrigation which appeared in our issue of October 4, 1893.

The paper also contains many special advertisements describing lands and irrigation machinery for sale, and various business opportunities. Delegates, citizens, news dealers, commercial bodies and all others interested in this important matter, are requested to send in their orders without delay. Price, 5 cents per copy. Twenty copies postage paid, \$1, except to newsmen, who will be given their regular rates. Circulate the Irrigation Edition of The Times.

## Crowding Out the Men.

It appears that the displacement of young men by women in the labor market is becoming quite a serious question in Canada. It is made the subject of a somewhat sensational article in a Canadian magazine, in which the writer declares that women's work has made such progress of late years in Canada that the women are underselling men and pushing them out of their field, so far as clerical work is concerned. In the course of this article the writer says:

"Nearly all classes of clerical work are passing rapidly into the hands of young women. These young women enter the offices with skillful fingers, winning manners, industrious ways, and appear to be well educated. They keep books, count cash, and discharge the multitudinous details attaching to business life. They do their work satisfactorily and well. Taken altogether, they are neater, better-behaved, and quicker than young men. Nor can it be said that they are less intelligent. They render them inferior to young men in clerical positions, where endurance sometimes becomes a factor. Experience has clearly demonstrated that these young women can do whatever is required of them, and do it to the satisfaction of their employers. From observation, I should say that two young women now enter the departments at Ottawa and Washington to one young man. What is true of the civil service is undoubtedly true of all branches of business. Clerical employees in shops and offices are all but gone to young men, and each year the situation assumes a more fixed form. Into the lighter branches of labor women are entering in steadily-increasing numbers to the business world. In the next twenty years, witness the enormous increase in the number of working girls and women as has taken place since 1870 in this country and the United States, we shall see young men doing the housework and their sisters and brothers carrying on half the business of the land. As an instance of the pinch is coming to be felt, I might cite the case of a family consisting of two girls and a boy, all old enough to earn their own living. The young man is a wide-awake, industrious, and clever boy, but when he gets into a position of good situations, he finds it impossible to secure an opening in which he could hope to even make the price of his board. This is by no means an exceptional case. Marriage are of the determinants in proportion to the population. I hold, after giving the matter careful thought, that the increasing number of working girls and the falling-off in the relative number of marriages, are connected in the relation of cause and effect."

This complaint is also heard in England and in the United States. While the ladies have been congratulating themselves on the widening of the field of women's work it does not appear to have occurred to them that every woman who finds employment in branches of labor where men have hitherto been utilized must crowd out some male workman. With striking and sometimes unreasonable regulations limiting the teaching of trades to boys as apprentices, and with women crowding into almost every light occupation, the question of what is to be done with our boys is becoming from year to year a more serious one.

## A New Motor.

In spite of the wonderful progress that has been made in street locomotion during the past few years, there are still many improvements to be made, and it is quite likely that the street-car motor of ten years hence will be as different from that of today as an electric car is from the steam locomotive.

A San Francisco inventor named Regan, who devised the vapor engines in general use on steamers and in factories, has invented a novel motor-car which engineers believe will revolutionize street-car systems. To a certain extent it is a development of the vapor engine. It is highly important as a new adaptation of the law of mechanical motion, and makes possible novel results in the starting and stopping of a car. It is understood by the mechanical world in general, and especially by locomotive engineers, that more power is consumed in starting a car than in maintaining its motion. In the first movement of a car lies the greatest waste of power, and it causes the major part of the wear and tear on the motive power.

One of the most satisfactory features of the recent election was the overwhelming defeat of Maynard, the Democratic candidate for the Court of Appeals in New York, who appears, according to all accounts, to have been a most undesirable person for a seat on the bench. He got himself very much "disliked."

Whether true or false, that is an impression abroad that Cleveland sides with the single-gold-standard men, and this undoubtedly cost him many votes.

It has been suggested that a committee of the City Council be appointed to investigate as to whether the library cannot in some manner be lighted at a less expense and in a more sanitary way, as the burning of such quantities of gas seriously endangers the health of the inmates.

A Worthy Cause.

The annual fair for the benefit of the orphans will be held in Armory Hall commencing Monday evening, November 18, and will continue during the week. An excellent musical programme has been arranged for the opening evening. Some of the finest talent in the country has been secured and a rare treat is in store for all who may attend.

The events will be of a very high order of merit. The object of the fair is to provide clothing and shelter for the homeless little ones, and will probably be liberally patronized.

Regarding the question of expense, this, we suppose, is another proof of

the practicability of Mr. Regan's invention appeals most strongly to street railroad companies and capitalists. An immense saving is secured from the start. The track of a horse-car system will suffice for the operation of this motor, which can follow any car, without changing the roadbed. No expensive power-house is necessary; there are no wires overhead nor cables beneath the track. The only employees necessary are a conductor and gripman for each car.

This system, should it prove to be all that is claimed for it, appears to be just the thing for suburban districts, where it is desirable to run a car-line at the least possible expense. With some such motor as this it would not need a large expenditure of money to have cars running out of Los Angeles for ten or twenty miles in all directions.

## Alaska.

Canoeing used to be very popular sport some fifteen or twenty years ago, and is still a favorite diversion with many people, although it appears to have dropped comparatively out of sight since the bicycle craze obtained such a hold upon the public. There is a great attraction about a canoe voyage, especially when it extends into unknown waters. One of the longest trips on record is that which has just been completed by Mr. Pike, an English explorer, who, as described in the Times of Saturday, traveled over 2500 miles in canoe through the interior of Alaska, without meeting with single accident. Mr. Pike says that the interior of Alaska is "absolutely worthless except for hunting," but the public will be inclined to take such a statement with some allowance. Alaska is a large country and cannot be thoroughly explored on a single trip, even when 2500 miles are covered, as in this case. Alaska is a land of surprises and is continually developing some new features which astonish even those who suppose that they know the country well. When it was first proposed to purchase Alaska, the statement was frequently made in Congress that the country was worthless, but since then it has produced much more than enough to cover the price which was paid to Russia for the territory.

There has been a good deal of juggling with the awards of premiums for wine and beer at the World's Fair, and some people are inclined to think that the interested parties have succeeded in bringing some influence to bear upon the judges. At least, there is always a great temptation for manufacturers to try and secure such a first-class advertisement as is furnished by a World's Fair indorsement. The proper way is to have samples of such articles furnished to the judges in bottles, without any labels, so that the maker's name would be kept secret and the product judged entirely upon its merit.

Mexico is now said to be suffering severely from the depreciation in silver. The interest on the national debt is payable in gold, and the Mexican government has to purchase gold at the rate of \$1.75 in silver for each gold dollar, the revenue being all collected in silver. There is already an influential party in Mexico which demands that the government cease to pay interest on its bonds until it is in better condition to meet the payments. If this should be done, the silver question would be brought home in a striking manner to the goldites in England, where the Mexican bonds are largely held.

Following the seal, it appears that the whale is now in danger of extinction in the North Pacific. The introduction of steam whalers has revolutionized the business, one small steamer taking as many as sixty-two whales in a season and another sixty-four. At this rate, the whales cannot last long. When we remember how rapidly the buffalo disappeared from this continent, we must not be surprised to see the whale become a rarity in the North Pacific within the next ten years, or, perhaps, earlier.

If it is true that Russia intends to replace a large amount of her paper with silver, it will be good news for the silver-mining interests of this country.

It is stated that Russia can easily absorb \$260,000,000 in silver.

Hitherto, the great difficulty in effecting an improvement is that the condition of silver has been the lack of co-operation

on the part of other countries. It is as long as such mistaken ideas as these prevail among the people of the East, it will be of no use to look to them for financial or moral support.

Perhaps the fact that so many Eastern capitalists are beginning to invest in irrigation securities holds out more encouragement than anything else in this direction.

## A New Motor.

In spite of the wonderful progress that has been made in street locomotion during the past few years, there are still many improvements to be made, and it is quite likely that the street-car motor of ten years hence will be as different from that of today as an electric car is from the steam locomotive.

It is quite reasonable to suppose that in this contraction of the male labor market may be found a partial answer to the inquiry why marriage is falling off in our large cities. If women absorb the clerical positions and clerks cannot find employment, it is quite evident that they cannot afford to marry, unless they are so fortunate as to find some lady worker who is able and willing to support them, while they sit at home and cook the dinner. The whole question is an important and interesting one, which seems to threaten a partial revolution in our present social system. After those good ladies in San Francisco have completed the purification of the press, it might be a good idea for them to take up this question and tell us what place they think the male portion of mankind is destined to fill in the economy of nature, when all the light and easy jobs shall have been appropriated by the fair sex.

Whether it be true or not that the electric light company does not give as much light as it is paid for, steps should be taken to see that light is supplied on nights when the moon only shines in the calendar, being obscured by clouds or fog.

Regarding the question of expense,

that Democratic prosperity about which we have heard so much, and of which a portion of the people have just given their opinion at the polls.

A new system has been invented by means of which vessels at sea might communicate with each other by sounds conducted under water. Communication has been kept up a distance of two-thirds of a mile, but there seems to be no reason why the distance should not be largely extended, and this may in time become a cheap method of submarine telegraphing.

Japan and Belgium are generally pointed to as examples of very-thickly populated countries, but they are not "in it" with some sections of the Island of Java, where as many as 22,000 people find support on a square mile. What this means may be better realized when it is stated that it would be equivalent to every 16,900 of population.

[COURT RECORD]  
**CURREY CONVICTED.****Another Tough Character Disposed of.****Haley's Partner Found Guilty of Robbery.****Only Ten Minutes Required to Reach a Verdict.****A Pasadena Gardener Adjudged Insane—The Terminal Train-wreckers to Be Rearranged—General Court Notes.**

Judge Smith and a jury were occupied yesterday in Department One, with the trial of the case against Matthew Currey, an associate of J. Milton Haley, the forger, upon the serious charge of robbery preferred against him by Lem Yuen, a Chinese lottery dealer, and, in spite of the fact that the evidence for the prosecution was almost wholly circumstantial, the defendant was convicted in the brief space of ten minutes after the matter had been submitted to the jury.

It was shown by the prosecution that on the night of the commission of the crime, Currey called at Lem Yuen's store on Los Angeles near First street, to inquire about the drawing of a certain lottery. To their surprise it being only 40 o'clock, the store was closed, but, while they stood at the door debating the matter, they heard some person groaning as if in pain within the building. They at once called the attention of Officer Seggar to the matter, and, upon returning with the patrolman to the entrance, it was found that the Chinaman was convulsed to the receiving hospital, where it was ascertained that he was seriously cut on the head in three places. Grave doubt was cast at first as to his recovery, but, after skillful treatment he received at the hands of the police surgeon proved so successful, that, in a few days, he was able to give an intelligent description of his assailants. Detective Goodman was called in to investigate the matter, and soon located Currey, whom the Chinaman positively identified as one of the two men who called at his store, engaged him in conversation, stunned and then robbed him.

Currey made a futile attempt to prove an alibi, but the jurors apparently gave no credence to his defense, for ten minutes after having come to a verdict of guilty, the defendant was ordered to appear for sentence on Monday next.

**ADJUDGED INSANE.**  
George J. Dolton, a native of Illinois, 31 years of age, a gardener by occupation, was brought from Pasadena yesterday afternoon, and taken before Judge Clark for examination as to his mental condition, and, in accordance with the recommendation of Dr. McGeown and Wernick, the examining commissioners, he was duly adjudged insane, and committed to the asylum at Highlands. The unfortunate man has been suffering for years from a chronic disease, and his mental trouble dates from an operation performed at Chicago, some two years ago.

**Court Notes.**  
In Department One yesterday morning Judge Smith arraigned Herman Nichols upon the charge of embezzlement, and Frank Ross and Hermann the two first-named defendants being allowed until tomorrow in which to plead, Demming being granted until Monday next.

Judge Smith sustained the demurser interposed to the information on file against the Maldonado brothers, charging them with placing obstructions on the track of the Los Angeles and San Joaquin Railway Company, yesterday morning, whereupon the District Attorney filed a new information against the defendants, upon which they will be rearraigned tomorrow.

In the Probate Court yesterday morning Judge Clark duly admitted the will of Luca Scicchitano, deceased, to probate; granted letters of administration, prayed for in the estates of John Kennedy, deceased, and Miles H. Carr, deceased, and upon motion of the administrator of the estate of T. K. Wilson, deceased, vacated his order of October 8 last and appointed Clara B. Wilson as executrix under the will, without bonds.

J. A. Scholl, the youth who attempted suicide in a Los Angeles-street lodging-house on Thursday morning last, was before Judge Clark and Commissioners McTigue and Wernick for examination as to his sanity, but, it appearing that he was despondent at the time of the commission of his foolish act, it was ordered that he be committed to the County Hospital for a short time.

When the sealed verdict returned by the jury in the case of B. T. Threlford vs. E. Anderson, on Thursday evening, was opened by Judge Van Dyke yesterday morning, it was found to be in favor of the plaintiff for \$100, whereupon judgment was ordered entered accordingly.

Judge Shaw yesterday morning denied the application for a temporary injunction in the case of J. C. Cline, receiver, vs. R. B. Fitzpatrick et al., an action for possession; but the plaintiff in the Price divorce case was granted leave to renew her motion for alimony and counsel fees, the time in which the defendant may answer, being extended until December 10.

The trial of the case of Marius Meyer vs. W. H. Smith, an action to replevin a quantity of wheat and barley, valued at \$600.40, was concluded before Judge Shaw yesterday, findings and judgment being ordered for the defendant. The suit of M. O. Landgard vs. A. A. Stevenson et al., a wall-paper case, appealed from Justice Magoon's court at Pasadena, was also tried in the same court, with a similar result.

John H. Dolben has instituted proceedings to obtain a divorce from his wife, Elizabeth S. Dolben, upon the usual statutory grounds.

Judge Shaw yesterday rendered his decision overruling the demurser in the amended complaint in the case of W. P. Tucker, trustee, vs. A. S. Robbins, an action to recover damages.

The trials of the Verdugo Chinamen, which were set for yesterday before United States Commissioner Vah Dyke, were continued until next Tuesday.

**New Suits.**  
Among the documents filed with the County Clerk yesterday were the preliminary papers in the following new cases:

City of Los Angeles vs. the City Bank; suit to have it declared that defendant received various sums, aggregating \$18,215, as a trustee for the city, and that said amount be declared to constitute a prior preferred claim upon the assets of the bank at the time of its suspension.

Los Angeles Lighting Company vs. City of Los Angeles et al.; suit to enjoin the Street Superintendent from tearing up and improving Aliso street, between Alameda and Kellar streets.

# CREDITORS' SALE

THE stock of goods of the CITY OF PARIS DRY GOODS STORE is being rapidly sold, the quality of the goods and the PRICES they are being sold at have, and are, telling the story, the people of this section of the State are getting the benefit of this forced sale. Goods are being sold entirely regardless of value or cost of manufacture; the only legitimate and honest judges of this fact are the people who have purchased goods at this sale. All others are and must be simply influenced by personal ill feelings or selfish motives.

The creditors will continue to sell this large and finely assorted stock until all the goods are sold, and the CASH realized, no matter how much or how little that may be the community does not care or worry itself about that, the only question is how CHEAPLY are the goods sold. The verdict rests with them. The immense crowd of purchasers that have been in daily attendance gives answer. One fact is admitted, that the City of Paris Dry Goods Store has always carried the largest and finest line of goods in Los Angeles. NO TRASH. NO AUCTION JOB LOTS, but the choicest goods that are manufactured in America and Europe; this is the class of goods which is now being sold for less than other merchants pay for their goods to manufacturers.

You save from 40 to 75 per cent. by buying now and at the Creditors' Sale. Cold facts cannot be talked down; compare these Goods and Prices with others; that tells the tale.

## In House Furnishing Goods

Look at Blankets, Comforts, Window Shades, Scrims, Down Pillows, Table Covers, Bed Spreads, Table Linen, Napkins, Towels, Sheetings, Muslins, Prints, Ginghams, Flannels, Lace Curtains, etc. See the "Novelty Dress Pattern Suits," the very latest importations from Europe, and some of the finest that were manufactured for the Fall and Winter of '93 and '94. At this sale you can buy two suits at about the same price you would have to pay others for one. Seeing is believing. In plain weaves, Serges, Henriettes, Hop Sacking and Cashmeres, this stock is complete in all shades and qualities. Every yard will be sold for less than import price; make comparisons with others.

Be sure and look through the following line of Silks, Crystal, China, Japanese, plain and changeable Surahs and Bengalines, Satin Duchesse, plain Satin and Fancy Novelty Silks; the verdict will be: "This is the Finest and Most Complete Line of Silks in the City." And prices that no other house in California will duplicate, the reason is the creditors

## Must Have the Cash,

And will sell all the goods for less money than others can purchase them at. The financial misfortunes of the CITY OF PARIS DRY GOODS STORE have put money, dollars and cents, into the pockets of the purchasing public.

Every dollar's worth of goods in this immense establishment must be sold. Bring your

**CASH,**

and you can get \$2 in goods for every \$1 in money.

**CHAS. MUNTER, Manager.**

## THE SESSION OVER.

**Congregationalists Close Their Labors.**

**Second and Last Day of the Meeting at Pomona.**

**Report of the Committee on Resolutions Presented.**

**Sabbath Desecration and the Liquor Traffic Condemned—Closing of the Mid-winter Fair Resumed—mended.**

The second day's session of the seventh annual meeting of the German Congregational Association of Southern California was held at the Pilgrim Congregational Church yesterday (Thursday).

The first thing before the meeting was the licensing, by the Los Angeles association, of J. B. Irvine, Jr., as a minister of the Congregational Church for three years. He is a graduate of the Theological Seminary of Cincinnati.

The report of the treasurer, Rev. Mr. Ford, was then read, showing a cash balance on hand of \$124. The report was accepted and placed on file.

At this point it was announced that it was time to elect a registrar and treasurer and a statistical secretary. The incumbent, Rev. Mr. Ford, was chosen to fill the two former positions, and Rev. D. H. Colcord, also incumbent, was chosen for the position of statistical secretary.

The Committee on Resolutions next reported and resolutions were adopted favoring international co-operation among the various churches toward the work of the foreign missionaries. The resolution stated that the different beliefs being presented to the people of other lands tend to confuse them. Three members were appointed to confer with other churches about the matter.

The next resolution presented was one which stated that the association rejoiced in the harmony which existed among the members of the American Board of Foreign Missions. Mr. Hill objected to the resolution on the ground that he hoped there would be harmony, but feared there was not. A vigorous speech by Judge Franklin Blader in favor of the resolution caused it to go through with a rush.

A resolution favoring the children's day was presented by the members of the Sabbath-school, each contributing 15 cents each child's day for missions, was passed by a unanimous vote.

The Midwinter Fair next received the attention of the association. A resolution was introduced strongly urging the directors of the fair to close the gates on the Sabbath day, and three members to present the wishes of the association to the directors. Some thought that perhaps the directors might think that the ministers were opposed to the fair, but it was decided to send a delegation to the Ministerial Union at San Francisco. The resolution was passed unanimously.

A resolution was introduced in which it was intended to divide the present association into two, but the resolution was tabled.

The last resolution, which passed by a unanimous vote, declared the association unalterably opposed to the liquor traffic in all its branches, and recom-

mended the churches to do all in their power to suppress the business.

The association next listened to an address by Rev. F. M. Price. The subject was, "Every Church Responsible For Evangelizing in Its Own Field." The address was listened to with close attention. The speaker stated that every church should look out for its own local needs. There, for instance, there were 50,000 people in Los Angeles who would rather go out to the city park and see a girl go up in a balloon and come down with a parachute, than to listen to the most elegant sermon.

What was needed was Christian people to go to the missions and talk to the people about Christ. Christians should see that theology and Christian science were driven out of the country, and should pray for the Holy Spirit to descend upon the people.

Rev. S. Bristol made a touching address on the baptism of the Holy Spirit, and half hour's prayer meeting followed, led by the aged minister.

Rev. Mr. Hunt then made an address explaining the great fair at Chicago. Rev. J. S. Jewell also made an address on the "Moral Character of the Exposition," and Revs. Hill and Case made similar addresses.

Rev. S. G. Emerson addressed the association upon the coming of the Christian Endeavor convention to California, in 1895, and what it means. He was under the impression that the convention would do a great deal of good to the State, and from a monetary and a Christian standpoint.

The association closed last night with a number of addresses by distinguished ministers of the Congregational Church, and a programme of music by the Glee Club of Pomona College. The meetings have been one of the best ever held, and the lessons very useful. The delegates were loud in their praise of the Pomona church entertained them.

The pastor of the church (Rev. Mr. Frary) has worked long and hard to make the association a success, and he succeeded admirably.

"PAPA" SCHURTZ AGAIN.

He is tried on a charge of battery before Justice Austin.

The proprietor of the saloon and restaurant at the corner of Spring and First streets, who is familiarly known as "Papa" Schurtz, was the defendant in a criminal case held before Justice Austin yesterday afternoon, the charge of which was battery. Henry Ander, a restaurant cook, was the complaining witness. He claimed that he had been ill-treated by Schurtz on Tuesday night while in the saloon owned by the defendant. Schurtz had ordered him out, and, upon meeting with a refusal, had seized him by the collar and endeavored to force him to go, when an officer interfered and Schurtz was arrested.

G. Wiley Wells, Esq., in behalf of the defense, put several witnesses on the stand to testify in the defense of Schurtz's conduct. Ralph Dominguo was one of the men who were in the saloon at the time, and his evidence was all on "papa's" side. He was quite sure that the defendant kept a most orderly house. In fact, he was actually "too strict" to be allowed to the class when the court adjudged Schurtz not guilty and dismissed the charge, as he also the counter one that was brought by Schurtz against Ander. Altogether, it was a "stand-off."

In the afternoon, Rev. E. D. Weare addressed the association upon "Sabbath Desecration by Professed Christians in Southern California." He held that the command to keep holy the Sabbath-day was one of the most important commandments. The court gave it to him to than to any other commandment. He also held that no one should give his servant to do work on the Sabbath, and included in the word, servant, railroad men, and said that he should travel over the railroads on the Sabbath-day, or by that act one made the servants of the railroad companies do work on the Sabbath-day.

The moderator then explained the needs of the Ministers' Relief Society. Rev. Mr. Newell spoke at length upon the subject, and urged members of the association to join the Ministers' Relief Society, and thus contribute to its support. The society has for its object the care of aged preachers and preachers who are physically unable to earn a subsistence. A collection was taken, and about \$50 raised.

Then followed an address by Rev. A. E. Tracy on Sabbath desecration in connection with the great expositions. He advocated the closing of the Midwinter Fair on Sunday, and said that Southern California should close its exhibits whether its Northern brethren did or not.

Rev. Mr. Irvine of Los Angeles then made an address, and advocated that all Christians should refuse to read a Sunday newspaper, and all business men should at once refuse to advertise in the Sunday paper, as its influence

is scientifically prepared Liniment and harmless; every ingredient is of recognized value and in constant use by the medical profession. It Strengthens Labor, Lessens Pain, Diminishes Danger to life of Mother and Child. Book "To Mothers" mailed free, containing valuable information and voluntary testimonials.

## LEGAL NOTARIES.

## The Recent Appointments Declared Valid.

A Nice Legal Point Decided by Judge Van Dyke.

Los Angeles is a County of the Second Class,

Therefore the Number of Notaries Public is Not Limited to Sixty—The Text of the Opinion.

A very nice legal point relative to the legality of recent appointments by Gov. Markham of notaries public in this county, in which also the question of the proper classification of the county incidentally comes up, was decided by Judge Van Dyke yesterday. In connection with the case of C. K. Holloway vs. K. E. Pickitt, an action to quiet title, which practically hinged upon this question, in accordance with the following interesting opinion:

## THE OPINION.

The facts stipulated show that the plaintiff and defendant in this action claim the property in controversy from the grantor by separate deeds. The defendant's deed was recorded prior to that of the plaintiff, but the plaintiff took his deed without notice and for value. The defendant's deed was acknowledged by A. C. Broderson, claiming to be a notary public, who received his commission from the Governor on Aug. 1, 1892, and therupon duly qualified. At the time of his purported appointment there were more than sixty legally-appointed qualified and acting notaries public in the county of Los Angeles.

Upon these facts the plaintiff makes the point that the appointment of the notary was invalid and void because Broderson, who took the acknowledgment, was not a notary public and that, therefore, the recording of the deed impeded no notice.

A. C. Broderson, a member of the Legislature, section 791 of the Political Code, in reference to the appointment of notaries, was so amended as to authorize the Governor to appoint and commission such number for the several counties as he should deem necessary for the public convenience, except in cities and counties of the first class, wherein the number should not exceed sixty.

The facts stipulated show that the plaintiff claims that for this purpose Los Angeles county falls within the first class, compelling that section 409 of the Political Code, as originally passed, is still in force.

The code took effect on January 1, 1873. Part 4 of the Political Code treats of the government of counties, cities and towns. Title 1 of part 4 gives the boundaries of the several counties and the government of counties. Title 2 of part 4 gives the government of cities. The Constitution adopted in 1879 imposes upon the Legislature the duty of establishing a uniform system of county government throughout the State by general law, and also by general and uniform laws to provide for the election of the various county officers, and prescribe their duties, fix their terms, and regulate their compensation, and, for the latter purpose, to classify the counties according to the population.

At the following session of 1880 the Legislature amended most of the sections (including 409) contained in title 1 of part 4 of the Political Code, but, owing to a defect in the title of the bill, the act was declared unconstitutional. (Leonard vs. January, 56 Cal.)

In 1883, the Legislature passed an act to establish a uniform system of county and township government. This law, designated the "County Government Act," covers the whole ground embraced in title 2, part 4, of the Political Code, without attempting to amend and re-enact each section therein contained; and in this act the counties are classified as required by the Constitution.

Various sections of this County Government Act were amended in 1885, 1887 and 1889, by reference to the sections therein contained, instead of re-enacting or referring to the old sections in title 2, part 4, of the Political Code. In 1890, an entire new code was passed to establish a uniform system of county and township governments, superseding and taking the place of the act of 1883, with the several amendments thereto. Section 10 of this act declares that the several counties in the State are hereby classified, and shall hereafter remain classified, according to their population, as ascertained by the Federal census taken in the year 1880; and further provides that after the next census a new classification shall be made annually; and in section 162 of the same act, for the purpose of regulating the compensation of the officers of the several counties, they are classified under the census of 1890. By the classification, counties containing a population of 200,000, or over, are of the first class, and those containing a population of 100,000, and under 200,000, are of the second class. By an express provision, all acts inconsistent with this act are repealed, but the same result would follow if this were not expressed, for, although by the Constitution it is required that an act re-enacted, or section amended, shall be re-enacted and published at length, still, where prior and subsequent acts are in conflict, the subsequent act prevails. The classification contained in the act of 1883 is referred to, merely, in this connection, to show that it is entirely inconsistent with that prescribed in the old section 409, title 2, part 4, Political Code, and, by the rule just stated, supersedes and repeals the same by implication, as well as by the express terms of the act itself. The classification of Los Angeles by the classification of the County Government Act of 1891, falls within the second class, and, therefore, by the amendment to the code, in reference to the appointment of notaries public passed at the last session of the Legislature, is the limit of the act in this respect. The decision of the case adversely to the plaintiff's contention, and renders unnecessary a consideration of the various other points presented.

Findings and judgment will go to the defendant.

WALTER VAN DYKE, Judge.

## THE EAST SIDE.

Baptist Harvest Home—The Concert Tonight. The Army of Unemployed.

Preparations are being made at the Baptist Church for a harvest home festival on Saturday, etc., a.m., when a special collection for home missions will be taken. In the evening, the pastor announces that he will preach especially to young men, and the old men having young hearts.

Tonight the concert given by the Army of Unemployed, organized for the benefit of the camp and repatriation fund, will take place, the Congressional Church having been secured for the purpose, on account of alterations being made at the other edifice. The programme, as announced, is a choice one, with such artists as Miss Ruth Kimball, who won recent honors at the World's Fair, H. S. Williams and the Misses Lay of local celebrity, and other artists of ability. A large number of tickets have been sold, and the house will doubtless be filled.

Work has been commenced upon Judge Ling's new two-story residence, at the corner of Downey and Griffin avenues.

The town is again flooded with men

out of work, and the local police are doing double duty and exercising all vigilance in the collection of persons.

Olive Creek yesterday took in one man for begging, but it is not the intention to make arrests except in the most aggravated cases, it being considered far better to allow the men to get out of town as soon as possible.

A brush fire on the hills east of town caused some excitement yesterday afternoon, and created an impression in the minds of some that the whole of East Los Angeles was on fire. The blaze was kept under control easily and no damage was done.

The special meetings at the Christian Church have been largely attended during the week, and will be continued probably for a fortnight longer. There will be no services on Saturday.

## SANDBAGGED.

## A Man Robbed in His Own Yard.

The Thugs Captured a Few Hours After the Crime—Attempted Burglary—Street-car Conductor Held Up.

Burglaries, robberies and "hold-ups" have been decidedly on the increase during the past month, and now hardly a day passes without at least one "house-breaking" or "hold-up" being reported to the police. The increase in the number of these occurrences is attributed generally, by those who have had occasion to investigate, to the presence of the army of men termed the "unemployed." While in a large majority of cases, it is true, there are deserving men among these crowds, the authorities are beginning to lose faith in them all, for a very respectable minority have been found to be vagrants and tramps, who do not want to work, but who merely live by thieving and begg-

The recent influx has brought here many of the latter class, which has resulted in the filling of the City Prison and County Jail more rapidly than ever before at this season of the year.

## SANDBAGGED AND ROBBED.

Yesterday two of the most hardened criminals and successful operators ever known in this part of the State were captured in the act of a robbery behind the bars in the City Prison, as the result of some clever work on the part of Detectives Benson and Marsh.

They did their last job early in the morning, about three hours before their arrest.

Patrick Carr, who lives at No. 220 Main street, spent the greater part of Wednesday night about the saloons in the lower part of town. In the course of his rambles, he fell in with two young fellows, known as George W. Olsen and John McDonald, and together the three made the circuit. At 12 o'clock they all met at the Olympic restaurant, and ate lunch, and then resumed their wanderings until nearly daylight, when they wound up at a saloon at the corner of First and Alameda streets, and took a parting drink together. Carr then started for home, but he did not notice that his newly-acquired friends were following him. He had hardly stepped outside his own yard, when he was suddenly felled by a blow from behind. While unconscious, the robbers went through his pockets, taking about \$40 in coin and a number of small articles.

The robbers were once out of the track of the two men, and the detection had them both handcuffed at 4 o'clock.

When searched at the station, a gold watch which had been stolen from a man named Gridley some months ago was found in McDonald's pockets, and silk tie, a part of other plunder, was taken from around Olsen's neck.

## ATTEMPTED BURGLARIES.

Conductor James Gallagher of the Consolidated Electric Railway is a firm believer in the opinion that the police force should be enlarged, at least to the extent that Winston street may be protected from light-fingered and light-footed gentlemen, who burgle in the wee-sa' hours. Last Wednesday night one of that class—all too numerous in these parts of late—paid two separate and distinct visits to Gallagher's house, the first time only getting as far as the kitchen, but the next time—penetrating the domicile, which was wrapped in slumber, as far as his wife's sleeping apartments, owing to the nervous wakefulness of Mrs. Gallagher, the burglar was frightened away before seeing any injury, and if he calls again he may find a man on hand with a gun. Meanwhile the public of Winston street long for the sight of an officer occasionally.

## "HELD UP."

Conductor Baker of car No. 6 of the electric road's Santa Fe line, was also held up Wednesday night just after he turned in at about midnight. After putting up his car he started to walk to Central to get to his lodgings, and had proceeded but a short distance when a man suddenly stepped out from the shadow on the sidewalk, and grabbing Baker by the shoulder, turned him around, at the same time demanding his money. Baker, who was carrying a large sum of money, was at the time in his car, and ran at full speed toward the police-house, only a few hundred feet distant. The highwayman did not pursue him, but on the contrary made equally rapid time in the opposite direction. Baker says that the man on the night before stopped him and asked for the price of a lodging. He thinks he would know him if he saw him again.

## A Midwinter Fair In Itself.

Our retail store, owing to its enormous size, its perfect arrangements, its wonderful variety of merchandise shown, and its great stocks is a continual and ever-changing exposition.

## In This Retail Store:

40,000 sq. ft. of floor space. 125 feet of street frontage. 3 elevators. 4 separate entrances. 30 distinct departments. 65 employees.

We Shall Endeavor to Increase the Sales  
Of this store from now until December 1st, over the same period  
in 1892, by from 50 to 75 per cent . . .

THIS RESULT IS POSSIBLE because of our large additional selling space, and further, owing to recent phenomenally advantageous spot cash purchases from manufacturers, we are able to place upon our counters this month many wonderfully attractive lines of the most desirable goods at prices never before equaled. At corresponding low prices we shall now offer these goods to the public. It is well known that only goods of trustworthy quality are placed on sale here. This reputation we shall zealously maintain, but the prices which we quote below, and which we shall continue to quote throughout November, are lower by far than can possibly be duplicated, we believe, elsewhere on the Pacific Coast--even when compared with prices made upon goods which do not possess the attributes of trustworthiness and desirability. We collect from our 30 departments the following

## . . . REPRESENTATIVE BARGAINS: . . .

\$9.45

At \$9.45—600 Men's Suits and 400 Men's Overcoats. You will see among them a variety of garments that are representative of style and merit of goods of higher cost. Every one of them worth \$18.50, and acknowledged to be the best \$9.45 Suits and Overcoats ever sold in this section of the country. Sizes 33 to 44.

\$11.95

At \$11.95—700 Men's Suits and 350 Men's Overcoats. In this line we show various rich garments that compare favorably with many you see elsewhere at \$15 and \$16.50. Every garment is choice in style and finish, and in them are represented Dame Fashion's nobby creations. Sizes 33 to 44.

\$15.75

At \$15.75—800 Men's Suits and 450 Men's Overcoats. This line represents the higher grade of garments, both as to style and finish, and are a magnificent line of tailor's triumphs. The perfection in fit has been reached in these elegant garments. It is a physical impossibility for merchant-tailors to make better for double the price. Sizes 33 to 44.

## Underwear News Gets

## Stronger and Stronger.

—Odds and Ends in Men's Merino Undershirts, only heavy winter weight, sizes 36, 38 and 40—25c at Jacoby Bros., worth 50c and 75c.

## BUSINESS.

## FINANCIAL AND COMMERCIAL.

OFFICE OF THE TIMES,  
LOS ANGELES, Nov. 9, 1893.

The favorable influence of Tuesdays elections on share speculations seems to have been counteracted by the announcement of Speaker Crisp, and the leading members of the Democratic Congress delegation, that the tariff programme, now in the hands of the House, at this time, is calculated to have a more serious effect upon current speculation than in the past, and the work of the Ways and Means Committee of the House is closely watched, and all rumors to the contrary be discounted. After a week's opening on the New York Stock Exchange, today, prices sagged, until an effort was made to acquire some shares of sugar, which ran that stock up 2 per cent., carrying with it the general market. The improvement was lost, in nearly every instance. In the late dealings, sugar covered 1 cent, and the market was again as it was before, and the general tone of the market was heavy, compared with the final sales of yesterday.

## PASADENA.

### Local Happenings of a Day Briefly Summed Up.

Progress at Hotel Green—Various Items of Local Interest—Points About Well-known People—Batch of Brevities.

Work was begun on Thursday laying the marble floor in the main entrance hall and office of Hotel Green. The plasterers have practically completed their work on the first floor of the building, which has been considerably delayed by the elaborate work on the ceiling of the dining-room, which in itself has necessitated the expenditure of a large amount of time and money.

The fifth floor of the annex is about ready for occupancy. The "help" will occupy the east side of this floor, for whose special accommodation it has been put in readiness. The second floor is also needing completion. Work on the third and fourth floors will be delayed somewhat, the idea being to get the first, second and fifth floors in readiness for occupancy at the earliest possible moment. The marble floor will be completed inside of a few days.

were elected for the first year: Albert Duffill of Rivers, H. R. Smith of Vernon, Silas Brown of Downey, D. M. Smyth of Pasadena, J. W. Hunt of San Fernando, J. C. Sherer of Glendale.

For the past two days General Overseer Weight, General Manager Drain and Plumber Downing have been at work with small saw, cutting and splitting in the lumber, crossing Colorado street on the west side of Raymond avenue. The culvert is small at the best, and the extra water from Colorado street will surely tax it far beyond its capacity in case of heavy rains. People, moreover, are beginning to demand any provision for the affected holes was not made in the specifications. The contractor, it is opined, might as well have paid for cutting them as the city.

The Pasadena pamphlet issued under the auspices of the Board of Trade about a year ago gave general satisfaction and was much admired. At the instance of the secretary of the board, a "holder" has been issued to the same pamphlets having been exhausted. Some interesting details relating to the latter publication might be given publicly, but are withheld on account of the super-sensitive composition of some of the interested parties. Had a subcommittee been chosen for the publication of a second edition of the pamphlet, the necessary amount of doubtless have been soon forthcoming.

### VENTURA COUNTY.

#### First Flower Fete of the Floral Society—A Fine Display.

The beautiful gardens of Mrs. Theodore B. Shepherd were filled with an admiring throng of visitors Friday and Saturday, the occasion being the first flower fete of the Ventura floral society.

It was the finest display of the kind ever held in the county, and reflects much credit on the ladies of the society.

In the rooms of a vacant house, at the upper end of the gardens, were displayed the cut flowers, fruits, nuts, vases, and potted plants. The rooms had been tastefully decorated for the occasion, and it is seldom one sees a more beautiful picture than was there presented. The exhibits were tastefully arranged, and called forth many words of praise from the visitors.

The exhibits were not all "city" grown, either, many choice specimens having been received from various sections of the county.

Among the displays deserving special mention were: Bodger & Son of Santa Paula, carnations (ninety-one varieties) and clematis; S. L. Lenson of Pine Creek, chrysanthemums; Alexander Wolde of Santa Paula, chrysanthemums; Mrs. W. B. Dudley, roses; Mrs. H. W. Conner, potted plants; Mrs. Thomas Gould, petunias. In addition to these, there were displayed fruits by Mrs. S. Preble, Mrs. Walter C. and Mrs. J. A. C. Davis, Mrs. T. W. Sturges of Santa Ana, showed watermelons that would cause a Georgia darky to dive for his "barlow" immediately.

Mrs. Shepherd left most of her flowers in her gardens, kindly allowing the same to be cut and used for display by others. She also thoughtfully threw open the doors of her hot-houses and conservatories, and seemed to never tire explaining to the visitors the mysteries of the flower world. Aside from the lessons learned in viewing the displays, much pleasure was derived from the social gathering. Refreshments were served, and every one was made to feel perfectly at home.

The trusty was met in adjourned session Wednesday afternoon for the purpose of considering the resolution of intention of opening and extending Sherman street north from Cahuenga street to Washington avenue, in the city of Santa Ana. The resolution had evidently been pretty thoroughly considered before the board convened, for there was but little action taken upon it when it came up for final action. It was passed by the unanimous vote of the members.

It is expected that the company will open will pass directly through what is now being used as the city play ground for the public schools. The Board of Education took it upon itself a short time ago to fence up what was formerly used as a street through the school grounds, and the trusty, declaring their intention to open the street makes it a matter of considerable interest not only to the residents of that immediate portion of the city, but of the parents all over the city of the children who attend the schools.

The trusty was instructed to advertise for twenty tons of barley hay, to be used in the street barn.

Trusty Hunt complained of the neglect of the Sunset Telephone Company to paint and properly put in condition its telephone poles within the city limits. The Street Superintendent was directed to notify the company that the poles must be painted and put in the condition required by the city ordinance.

A. L. Webb is a candidate for Town Clerk. He is running on an "independent" ticket, of which he is the top and bottom.

"Uncle" Sol Sheridan and wife will celebrate their golden wedding the latter part of this month, which will be the occasion of a family reunion. Their son, John J. Sheridan and family of St. Joseph, Mo., Ed M. Sheridan and family of Oakland, and Sol N. Sheridan, next editor of the San Francisco Call, will be present to witness the impressive service as it was performed fifty years ago.

**SANTA BARBARA COUNTY.**

#### Officers Raiding the Camps Established by the "Gentlemen of Leisure."

A highwayman tried to hold up a bus containing some ladies, coming home from the Catholic Fair, Monday evening, but the driver whipped up his horses and got away. Attempts at robbery increase with the hobs that infest the town, and the officers have been raiding the camps established by the "gentlemen of leisure" on the outskirts of town.

**THE COTTAGE HOSPITAL.**

At the annual meeting of the Cottage Hospital Association, the reports showed that from November 1, 1892, to October 31, 1893, fifty-two patients had been admitted, of which twenty-seven were discharged cured, ten improved, ten not improved, five deaths, and five patients remaining. During the same period the receipts have been \$624.69, of which \$17.73 remains in the treasury with which to begin a new year.

There is a training school for nurses in operation under the direction of Mrs. Mary C. Ward, and one young lady graduated this year.

Anders Jensen was on Thursday sentenced by Judge Towner to a term of three years in the State's prison at Folger's for breaking and entering a fictitious check.

He not only admitted his guilt in this instance, but confessed to having committed a number of penitentiary offenses in various portions of Southern California. He is just a young man, not over 23 or 24 years of age—and has an innocent-looking face. Deputy Sheriff Buckley left on the noon train with his prisoner for Pocatello, Idaho, where he will probably make their acquaintance.

**JENSEN SENTENCED.**

ABSOLUTELY PURE

### HE WAS GUILTY.

George Jones Should Not Have Disturbed the Public Peace.

George F. Jones, who has had a lot of trouble on his hands of late, and most of it through his own exertions, was sentenced to twenty days imprisonment yesterday by Justice Austin upon conviction of disturbing the peace.

A few weeks ago Mrs. Jones endeavored to have her husband sent to the insane asylum, but she failed in this, and since that time, so it is stated, the couple have been having a sort of "monkey and parrot" time.

One morning this week Jones went to a white house and went to a private disturbance, house being broken in the door and abusing his wife and child. The latter testified against her father yesterday, and after hearing all of the evidence Justice Austin promptly passed the sentence.

### Athletic Club Field Day.

The Los Angeles Athletic Club is preparing for a race meet to be held on Thanksgiving day, November 24th, commencing at 1:30 p.m. The events embodied in the programme are: Lacrosse match, Riverside vs. Los Angeles; mile safety bicycle race; novice, 100-yard dash; mile safety bicycle, 2:30 class; pole vault; 440-yard run; mile safety bicycle, lap race; running high jump; mile safety race, Chinese, 220-yard run; two-mile safety bicycle, handicap; one-mile safety bicycle, open.

The races will be run on the five-foot bank quarter-mile track, the entries to close on the Monday preceding the day of events. All events are open to recognized amateurs.

### SPREADING FAST.

Demands for high-crown sailors, nobility and in high-class and felt, 75 cents and up at the Modern Millinery store. Hoffman & Co., No. 240 South Spring street.

REMOVAL OF THE SMITH PREMIER TYPE WRITER AGENCY.

We have removed to No. 289 South Broadway (with Singer Machine Co.) and invite all our friends to call on us in our new quarters.

### CARD OF THANKS.

To the friends of the late Mrs. Katie Sherman, I desire to express my gratitude for their many acts of kindness toward Mrs. Sherman and her family, during and after the termination of her fatal illness. Respectfully, REBECCA CROUSE.

### MT. LOWE RAILWAY.

Grand mountain trip, attractive scenery. Beautiful view of the San Gabriel Valley. See time card.

The W. C. Furry Company, sell the best filter in the world—the best and every description—of tin, sheet-iron, nickel, silver-plated, wooden and copper ware. Nos. 15 to 16 North Spring street.

216 and 218 South Spring St.

Today the World's Convention of Christian Workers meets at Atlanta, Ga.

Two thousand delegates are in attendance, and the number includes many persons of large wealth and influence, who devote a considerable part of their time and their means to Christian work among the poor of our larger cities. It is one of the most important gatherings ever held in the South.

Things are moving with us. Our ladies' wrappers and gents' smoking jackets are being sold. Come and see our selections before the choice are gone. Our line of Japanese cotton rugs is complete, running in price from \$1.25 to \$35.00; in size from 2x8 feet to 12x15 feet.

KAN-KOO, 110 South Spring street.

Opposite Nadeau Hotel
